Bar Clamps For Welding and Fabricating

All Steel, Sliding Arm "F" Style Bar Clamps

- Rail, fixed jaws and pressure plate heat-formed in one piece from cold drawn profiled steel – optimized for high static stress loadings, tempered and electro-galvanized.
- 2 Unique Bessey Morpad tilts to 35° easily removed for maintenance or replacement.
- Heat treated, high carbon Acme threaded screw
 tempered and quenched to give greater loading capacity and longer service life. Spatter resistant.
- 4 High-strength electro-galvanized sliding pin T-handle rounded ends for comfort, size engineered to load capacity.
- 5 Tempered Steel Sliding Arm drop forged, electrogalvanized.

Professional Series clamps feature:

- Unique Bessey Morpad replaces a standard round ball and socket with an "engineered hemisphere and socket" for greater angle of pivot and a safer pad that won't pop out under pressure
- Replacement arms, spindles and Morpads are available for Professional Series Bessey steel clamps
- Rails and fixed top jaw are drawn, heat treated, tempered and quenched under rigid controls in Bessey's own steel plant
- 1800 Series and 2400 Series steel clamps are available with a Bessey Grip Handle - a durable, comfortable accessory that fits snuggly over the standard steel sliding pin handle

J Series Step-Over Steel Clamps

- Sturdy J-shaped fixed arm produced and tempered in one piece for maximum tensile strength and sturdiness.
- 2 Replaceable heat-resistant pressure plate can be tilted up to 35° for clamping on angled or sloping surfaces.
- 3 Forged sliding arm made from tempered steel for maximum forces.
- 4 Tempered, spatter-resistant and wear-resistant spindle for long life
- 5 Sturdy sliding pin T-handle has rounded ends for comfort and hexagonal bolt for powerful, controlled clamping.

J Series Step Over Clamps

 Bessey Grip available on 3 J Clamps: product # J-18-8, 2400 J-12 and SQJ-12

Rapid-Action, Steel Lever Clamps

- 1 Ratchet mechanism ensures rapid, vibrationresistant clamping. Hardened cam at the end of the lever ensures a long service life.
- 2 Torsion-resistant, fixed bracket and pressure plate are produced and tempered in one piece for maximum tensile strength and sturdiness.
- Forged sliding-arm is serrated; made from tempered, drop-forged steel for long service life.
- 4 Ergonomically shaped powder-coated clamping lever and plastic-coated release lever for comfort and power.

Bar Clamps for Construction, and Woodworking

K Body Parallel Bar Clamps

- Large parallel jaw surfaces made from non-marring polyamide for accurate clamping on a range of projects.
- 2 Internal steel frame ensures accurate 90° angles; very sturdy even at maximum pressures.
- 3 BESSEY anti-slip system: Two hardened set screws molded into the sliding arm tightly grip the serrations in the rail.
- 4 Swivel fitting ensures clamp sits parallel to bench top; removable tail-piece allows for reverse of sliding arm for use as spreader

- Accurate, powerful ... America's favorite woodworking clamp for over 25 years; nominal clamping force up to 1,100 lbs.
- Robust rails are profiled to minimize flexing and bending ... galvanized to prevent marring of projects

KP Framing System (Rail & Stile Jig)

• Quick, accurate set up of raised panel doors, frames, boxes, etc

K Body Maxis[®]

- Rotates around pivot to any angle from 0° to 270°
- Can be used with most bar clamps and pipe clamps

K Body Extender

- Connects two Bessey bar clamps for extended reach
- Durable, aluminum construction for rigid accurate link

Tradesmen™ Malleable Cast Bar Clamps

- Integrated Bessey anti-slip system set screw that is molded into the sliding arm interlocks with the serration on the rail to prevent the clamp from slipping.
- Corrugated malleable cast iron fixed jaw and sliding arm generate powerful, rigid clamping. Top jaw press fitted to rail-no mechanical fasteners to loosen. Powder coating protects against corrosion.
- 3 High-quality profiled rail from Bessey's own steel plant optimized for clamps. The profile acts as a reliable reinforcement against torsional forces, while the serration on six faces additionally prevents the clamp from slipping.
- 4 Smooth-running spindle with Acme thread more clamping with less cranking. Work hardened for strength.

TG Professional Series Malleable Cast Clamps

- Ultimate in stability for professional woodworking and construction sites ... invaluable for high pressure applications and wide openings
- Pressure plates can be changed without tools
- Choice of traditional wood handle or new ergonomic 2K handle.
- Malleable cast jaws feature corrugated design for strength and long tool life

TC Jobsite Series Malleable Cast Bar Clamps

- Flatrails are an economical alternative ... Bessey quality at an appealing price for lighter duty applications and hobby projects
- Available with wood handle only

Clamp Kits

- We have pre-packaged a selection of the most popular Bessey clamps for craftsmen
- K Body kits
 - KBK 1224 ideal for picture frames and drawer boxes
 - KBK 2440 ideal for cabinet panel doors
 - KBK 2440 ideal for large cabinet panel doors
- BTB30and BTB30Aa versatile offering suitable for most general workshop projects
- TWH-2 is a pair of bar clamps affectionately called the "workhorses" are an indispensable duo for day in and day out job site and workshop projects

LM Series Zinc Die Cast Bar Clamps

- Zinc die cast jaws are light weight but still hold up to 550 pounds of clamping force
- Serrated rail for slip resistant grip
- Large Acme thread for quick, smooth operation
- Non-marring plastic caps on pressure pad

KliKlamps

- 1 Magnesium jaws are extremely light and strong.
- 2 Ratchet mechanism is vibration-resistant ideal for use with power tools. Ratchet action controls clamping and release quickly and easily.
- Fixed arm with V-grooves holds any shaped work piece firmly.
- Durable, fibreglass-reinforced polyamide clamping arm ergonomically designed for comfort and power.

Klemmy Clamps

- Cam-action is ideal for light-touch clamping for delicate tasks like antique restoration, veneering and making or repairing musical instruments
- Upper and lower arms and lever made from highquality hardwood
- Cork protective pads for gentle clamping

Staircase Clamp

The Bessey Staircase clamp offers a safe, productive alternative for staircase manufacturers:

- It reduces exposure to the risk of injury, fatigue and pain caused by heavy hand-tightening of hundreds of clamps
- It improves productivity over hand-tightening manual clamps by using air-tools or ratchets (15 ft/lb of torque) in high volume production shops to tighten clamps

Framing Clamp

- 1 Save time and labor on the job: simply drive the spear-tip of the clamp into the rafter and tighten the spindle.
- 2 Broad impact surface of striking anvil makes it easy to drive the clamp while working on rafters and joists.
- 3 Morpad pressure plate tilts up to 35° to accommodate standard framing angles.
- 4 Sturdy hex-boltaccommodates torque wrench to improve productivity.

Cross Over Bar Clamps for Wood and Metal

MaxFlex Series Bar Clamps

- 1 The patented OMEGA bend dampens the impact of external vibrations while clamping.
- Fixed arm and pressure plate produced and tempered from one piece of quality Bessey steel.
- The arc of the Omega curve enables the rail to hug tightly to the surface work piece ... allows clamping right into the corner of the clamp.
- 4 Choice of traditional sliding pin handle or the new ergonomic 2K handle.

2K	2 part composite handle with comfort insert		

PowerGrip One-Handed Bar Clamps

- Ergonomic handle with pump lever configured parallel to the rail for balanced, safe handling.
- 2 Quick release button for rapid action of sliding arm.
- Removable plastic caps provide a non-marring, soft touch for use with wood and finished metal surfaces.
- 4 Fixed arm and pressure plate drawn and tempered from a single piece of high quality Bessey steel.

North American PowerGrip Clamps feature a red body housing. The black housing shown in photo is the European version and not available in North America. The mechanism is identical in both ... the <u>only</u> variation is color.

DuoKlamp One-Handed Bar Clamps

- 1 The action of the DuoKlamp reverses from clamping to spreading with the simple twist of the mini-dial. This unique feature makes it quick and easy to toggle between clamping and spreading without taking the tool apart like other less convenient clamps.
- Ergonomic handle with pump lever configured parallel to the rail for balanced, safe handling.
- 3 Quick press of a button allows the clamping arm to quickly slide up or down to clamping position.
- 4 Large impact and fracture-resistant reinforced polyamide jaws stay parallel to each other. Unique centered jaw configuration facilitates clamping on all four edges as well as the large surface of the jaw.

Specialty Clamps For Welding and Fabricating

Angle Clamps for Welding and Fabricating

Welder's Angle Clamp

- Automatic adjustment to work pieces of different thicknesses
- Sturdy jaws and base made from high grade cast iron
- Copper-plated spindles resist spatter
- Accurate 90° angle

Welder's Multi-Angle Vise Set

- Clamps components of different thicknesses from 5° to 180°
- Cast iron body and base plate; copper-plated spindles

Welder's Corner Clamp

- Open construction for easy access to work
- Clamps different thicknesses of metal at 90°

Angle Clamps for Construction and Woodworking

WS Angle Clamps

- Holds and aligns material at a 90° angle. Accurate, ideal for cabinetry
- Adjusts automatically to wood thickness
- Features: Galvanized spindle; Acme thread; die cast jaws

 plastic-coated to protect work; designed for clearance for dowels, screws or staples while gluing.

Table Clamps

• Holds Bessey table top clamps to work surface

Variable Angle Strap Clamp

- Strap draws simultaneously from both sides ensuring pressure is applied equally on all angled corners without distortion.
- Integrated rewind mechanism operates by cranking handle eliminates tangling or damage to band.

 Vario clip corners with twin-tilting pressure pads
- auto-adjust from 60° to 180° for easy assembly of any multi-angle project.
 Clamping strap is made from seat belt strength
- woven polyester for high resistance to tearing. The steel wire loop closure opens quickly and simply to adjust or release glue-up.

ES Irregular Angle Clamp Sets

- Used With Bessey TGK Bar Clamps, this ball & socket system applies direct force on angles from 15° to 180°
- Caps are glue resistant anti-slip inlaid pads won't mar work

Bessey Portable Mini-Vise

- Non-marring glue resistant jaws
- Removable, galvanized bars accommodate irregular shapes
- Can be clamped to work surface with TK-6 table clamps

Specialty Clamps and Hold Downs For Welding and Fabricating

Variable Angle Devise (VAD Pad)

- Floating pads tilt 60° inward or outward ideal for clamping or aligning round, oval and angular pieces
- Easy to install and remove; swivels 360°
- Fits up to 2400 series clamps

Deep Reach Pipe Clamp

- Holds pipe in alignment for welding
- Jaws & clamparms made from malleable cast iron

Claw Clamp

- Spindle mechanism can be positioned outside working area for use in confined spaces
- Can be use as a spreader (needs optional CLS shoe).
- High-grade cast pressure plate ... swivels up to 30°

Jig & Fixture Clamp

- Clamp on any perforated flat surface for 360° rotation
- Pressure plate swivels up to 35°

Hold Down Table Clamp

- Vibration proof, ratchet action fast and secure
- Ideal for machines equipped with "T" slots
- Quick release button to instantly release pressure

Claw Machine Clamp

- Cantilever jaw for clamping in tight space with screw positioned outside of work area
- Full rotation through 360° radius for easy set-up

Specialty Clamping Tools For Construction and Woodworking

Edge Clamps

EKT Professional One-Hand Edge Clamp

- 1 Unique twin spindle. Outer spindle acts on the clamping jaws inner spindle applies pressure to the front edge. Impact resistant plastic handle.
- 2 Two large non-slip, opposing, gentle jaws for positive grip.
- 3 Large swivel pressure plate applies pressure on demand. Removable protective cap.
- 4 Lightweight, corrosion-resistant aluminum housing designed for high static stress load.

Spring Clamps

VarioClippix XV Spring Clamp

- Rapid-action, polyamide, sliding top jaw infinitely adjusts to fit project ... the clamping capacity of a 4" spring clamp with the comfort of a 2" clamp.
- 2 Ergonomic 2-component handle designed for comfort and firm grip.
- 3 Soft-touch pads for a non-marring firm grip.

VarioClippix XV Spring Clamp

- Revolutionary design ... feels like a 2" spring clamp and but has a clamping capacity like a clamp twice its size
- Polyamide material is lightweight, strong and corrosion resistant

Clippix XC Spring Clamp

- Made from durable, lightweight polyamide
- The comfort and grip of the VarioClippix Series in a traditional spring clamp configuration

Economy Spring Clamp

- Light duty spring clamps for home or shop
- 4 popular sizes, conveniently packaged in a mesh bag

Ratchet Action Spring Clamp

- Heavy duty resin construction with pivoting jaws
- Ratcheting mechanism quick action, quick release

Steel Spring Clamps

- Heavy-duty springs for firm grip, nickel plating resists corrosion
- Vinyl tips and handles prevent marring

PS55 Seaming Tool

- Twin vacuum cups secure clamp to any non-porous, solid surface material such as granite, marble or glass
- Leveling toggles ensure smooth surface joint, reduces grinding, sanding and finishing
- Precision, professional tool with work hardened spindle, aluminum frame and cold drawn rod guides

Flooring Strap Clamp

 Quick, accurate solution for installing parquet, plank and laminated flooring—13 ft. strap

Ratchet Tie Down

• For clamping awkward and irregular shape projects

"H" Style Pipe Clamp Fixture

- "H" shaped foot assembly stabilizes the clamp in two dimensions giving dual-axis stability
- Extra high base provides industry leading clearance from the work surface
- Cast jaws for durability, smooth action spindle

T-Bar Sash Clamps

- Fast, easy adjusting moveable jaw simply slide to work piece, place lock pin in perforated rail
- Rugged construction castiron jaw, steel rail

Heavy Service C Clamps

- Drop forged, heat-treated frame for strength
- Clamping force up to 40,000 pounds
- Hex head for maximum toque
- Available by special order only

Heavy	Service	C-Clamps

100 Series C-Clamps Square head/Sliding T-handle (Special Order)

Quick Release C Clamps

- Malleable cast-iron frame, powder coated to resist corrosion - ideal for DIY projects
- Red quick-release button for rapid opening and closing
- Chrome plated spindle and swivel pad

Double-Head C Clamps

 Provides twin top pressure points in light duty clamping applications—ideal for hobbies, crafts light trades

Grip Pliers

Bessey Grip Pliers combine the adjustable jaw of a sliding-arm clamps with the functionality of the grip pliers design. Quick to engage with the advantage of parallel clamping jaws. A versatile, useful addition to home and shop.

SuperGrips™

- Infinitely adjustable jaw
- Cold drawn, profiled steel rail
- Adjustable screw/lock nut (on lower lever): adjusts jaw angle (up to 7°) for clamping tapered parts
- Adjustable screw/lock nut (top handle): adjusts clamping force
- SG-GC Welders' Ground rated for 400 Amps

MultiGrip

- Jaw open in two stages for "pre-clamping" effect to enable adjustment before applying maximum pressure
- Integrated locking thumb-screw to pre-set jaw opening for repetitive work

SuperGrip Pipe Clamps

• Cradle jaw aligns and holds pipe firmly in place

Deep Reach

• Clamps over angle iron, channel iron and other obstacles

SuperGrip Welders' Fork

• Forked jaw clamps two work piece together over an obstruction

VarioGrip Welders' Fork

 Two independently-adjustable sliding heads can be set at different heights AND depths

Industrial Magnets

Welder's Magnets

- Quality magnets for fast, simple set-ups
- Single magnets hold work at set angles
- Double magnets hold work at any angle
- Larger models have "T" handles to release magnets

Specialty Magnets

Belt MagClip—Handy magnetic disc with belt clip for holding screws, nuts, small parts while working

 $\label{eq:mag-pick-up-magnetic} \textbf{Mag Pick-Up} - \textbf{Magnetic disc on 35}'' \ tubular \ shaft for picking \ up \ small metal parts - also useful during clean-up$

 $\mbox{\bf MagStik} - 5 - 1/2 \mbox{\ ''epen-sized''} pocket \ magnet \ extends \ to \ 26 \mbox{\ ''} \ to \ pick-up \ hard \ to \ reach \ small \ metal \ objects$

 $\label{eq:magBend-it-similar to MagStik with magnet on a flexible shaft $$ MagSweep-$Rolling shop-floor magnet on wheels, $24"$ swath $$ MagWand-can pick up to 12 lbs. of swarf in a pass for a cleaner, safer welding and machine shops. Rolls easily over industrial work surfaces-"dumps" waste by simply pulling sliding magnetic insert. $$ Comes in $16", $22", $36"$ and $48"$ lengths.$

Snips, Knives & Cutters

Bessey industrial snips and cutters offer tradesmen the advantage of choosing fine quality at a competitive price. Quality in cutting tools means a sharper cut – and a cutting edge with a longer life.

Bessey Compound Lever Snips

Aviation Snips

- High grade steel cutting blades HRC of 61 to 62.5
- Micro-serrations for slip proof working

Special Hard Cutting Snips

- Special high grade steel cutting blade HRC up to 64
- Micro-serrations for slip proof working

New Generation Offset Snips

- Special high grade steel cutting blade HRC up to 64
- Optimized leverage rotation 25% less effort
- Optimized edge shape: slip-proof, non-serrated blade
- Compact cutter head for maximum maneuverability

Offset Snips - Short Cut

- Special high grade steel cutting blade HRC up to 62
- Micro-serrations for slip proof working
- Special flat cutter head enables cutting narrowest radii

Offset Snips-Long Cut

- High grade steel cutting blade HRC up to 62
- Micro-serrations for slip proof working

Long Nose, All Purpose Offset Snip

- High grade steel, extra long cutting blade designed for continuous cuts – HRC up to 62
- Angled cutter heads keeps hands free from work

Premium Offset Snips

• Case-hardened, high-speed steel edges - HRC up to 68

Titanium-Nitride (TiN) Coated Offset Snips

- Case-hardened, high-speed steel blades HRC up to 68
- Titanium-Nitride (TiN) coated for longer service life

Short, straight & narrow curved cuts – right Short, straight & narrow curved cuts – left Short, straight & narrow curved cuts – left or right Continuous, straight & curved cuts – left Continuous, straight & curved cuts – right

Bessey Industrial Snips & Cutters

Safety Steel Strap Cutter

- Special high grade steel cutting blade
- Prevents bands (1" wide/.6 mm thick) from springing back

Nibbler

- Distortion-free cuts in sheets up to 1.2 mm thick
- Clean burr-free edges, no deformation of surfaces
- Integrated chip-separator for cleanly cut notches

${\bf MultiSnips\,MultiPurpose\,Cutters}$

- Stainless steel blades
- Spring opens cutter automatically, thumb operated lock
- D47 and D48 straight blade
- D48A-offset blade

Cable Cutters

- Stainless steel blades
- $\bullet\,$ For multi-core cable with diameters up to 10 mm.

Combinox MultiPurpose Cutters

- Stainless steel blades cut wide range of material
- Spring opens cutter automatically, thumb operated lock
- Blade notched for wire stripping,

MultiSnip Master

- $\bullet \ \ Stainless steel cutter head cuts wide range of material$
- Angled cutter head keeps hands safely free from work
- Spring opens cutter automatically, thumb operated lock

Jeweler's Snip

• Quality steel, polished edges, black handle

Electrician's Scissors

 Light duty, nickel plated, serrated blades; wire cutting notch

"Professional Shears

- Heavy duty shears with stainless steel blades
- Offset, black lacquered handles, extended finger grip

Bessey Pattern Snips

American Pattern Snips

• Quality steel cutting blade

SuperPower Snips

- Innovative upgrade to proven performer...compound lever style needs 50% less hand force than ordinary pattern snips
- Self-opening jaws with reliable locking closure
- Cuts up to 19 ga. (1.0mm) cold rolled steel or 25 ga. (0.6mm) stainless steel – HRC up to 62
- Large handle loops accommodate safety work gloves

Bessey Folding Utility Knives

All knives feature:

- Folding and locking blades with belt-clip
- Easy blade change using standard utility blades
- Spring blade release

Model D-BKPH also feature:

- Thumb cushion
- Blade storage with spring release, 5 blades included

Specialty Clamps/Hold Down Systems For Welding & Fabricating

Kant-Twist® Clamps

- Cantilever design floating jaws always stay parallel
- Built-in "V" block to hold round stock
- Copperplated jaws and screws resist weld spatter

Stainless Steel Kant-Twist®

• For use where corrosion and magnetism are a problem

Kant-Twist® Weaver Grip

- Comfort grip max. pressure/less effort
- Easy to tap on and off
- High quality ABS plastic for durability

RiteHite Hold Down System

- Self-positioning, single component design
- Swivel rocker attached body prevents loss
- Instant set-up and eliminates shim stock
- Wide clamping range—instant adjustment to 5"
- Strong, ductile iron body
- Uses standard T slot hardware available from your industrial supply distributor

Quick Set Hold Down System

- quick Set Blocks: drilled and riveted one end individual leaves rotate independently to match clamping height (leaf thickness approx. 1/8")
- quick Set hardened Straps: drop forged or cold-drawn, heattreated straps
- quick Set heavy duty Washers: 3/8" thick, 2-5/8" OD
 -matched to Quick Set System

Bench Vises

Bessey Industrial Vises

Bessey Mechanics Vises feature:

- High tensile strength (36,000 psi gray iron castings)
- Machined to close tolerances for smooth action
- Large diameter, high-quality steel lead screw; Acme thread
- Robust sliding pin T-handle
- Replaceable, hardened and serrated jaw plates

Bessey Heavy Duty Mechanics Bench Vise

• Enclosed main screw to avoid dirt accumulation

Bessey Medium Duty Mechanics Bench Vise

360° swivel base assembly available as accessory

 feature time saving central lock-down devise

Bessey All-Steel Utility Vise

- Tough, all-steel, general purpose vise
- 360° rotation swivel base with 2 lock downs
- · Large flat anvil with horn

Yost Industrial Vises

All Yost Vises Feature: large anvil; HD lead screw, rolled Acme thread; precision-machined, ductile casting; 60,000 psi tensile; robust sliding pin T-handle; interlocking 360° swivel with 2 lock downs; meshed inner gears prevents slippage

Yost 200 Series Machinist Vise

- Replaceable hardened steel serrated jaws
- Conforms to US Gov. Fed. Spec. GGG-V-410BType VI Class 2

Yost HD 30 Series Combination Pipe & Bench Vise

- Replaceable hardened steel serrated jaws
- Set-back, integrated pipe jaws grip without crushing or bending; setback-won'timpede use as a machinist vise
- Conforms to US Gov. Fed. Spec. GGG-V-410B Type VI

Yost Medium Duty 1700 Series Vise

- Replaceable hardened steel serrated jaws
- Hardened vise jaws replaceable & reversible
- Interlockingswivelbase has full 360° rotation with 2 lock downs and meshed inner gears to prevent slippage
- Set-back, integrated pipe jaws grip without crushing or bending; set back-won't impede use as a machinist vise

Aluminum Jaw Caps (sizes: 3-1/2", 4", 4-1/2", 5", 6" and 8")

- Reduce marring available as an accessory
- Meets US Gov. Fed. Spec GGG-C-00137B

Bessey Woodworking Vises

- High-quality gray iron castings
- Quick-release function to speed up clamping work
- Extra long openings of 11"
- Front jaws have integrated bench dogs

Industrial Hammers

Screw-on Tip Hammers

- Meets GGG-H-33A US Government Specs
- Supplied with zinc head (holder) ... tips sold separately
- Color coded replaceable tips in 5 harnesses; interchangeable with most other national brands

Press-on Tip Hammers

- Meets GGG-H-33A US Government Specs
- Precision balanced steel head replaceable urethane tips
- Add "-1" to hammer number when ordering tip only

"Big Orange" Hammers

• Virtually indestructible, non-marring urethane head — absorbs shock, won't mushroom or split, non-sparking

Brass Hammers

- Meets GGG-H-33A US Government Specs
- High purity brass head; long life; non-sparking; non-magnetic

Copper Hammers

- Meets GGG-H-33A US Government Specs
- $\bullet\,$ 99.9% pure copper head non-sparking and non-magnetic

Lead Hammers

- Meets GGG-H-33A US Government Specs
- Genuine 4% antimonium lead; tubular steel handle; comfortable vinyl grip; molded-in pin holds head secure

Dead Blow Hammers

- Shot-loaded head: 30% more force, no recoil; non-sparking, heat resistant; 20X life of rawhide or metal head
- Extruded fiberglass handle less breakage, less vibration, less fatigue; non-slip ribbed grip

Mor-Head Industrial Hammers

- Face yields to struck surface on contact
- Replaceable handles and heads

Mο

r-Head Soft Alloy Tapping Hammer

• Dense, wear-resistant, non-destructive, ductile alloy

Mor-Head Soft Alloy Sledge Hammer

- For heavy duty impacts
- · Dense, wear-resistant, non-destructive, ductile alloy

Mor-Head Brass Hammers

- Variety of weights for light to medium duty impacts
- Non-destructive, wear resistant brass

Mor-Head Brass Sledge Hammer

- 9lb. head for heavy duty impacts
- Non-destructive, wear resistant yellow brass

Mor-Head Easy Replacement Handles

- Indestructible steel shank
- Contoured synthetic rubber grips comfortable, safe, non-slip

X4 Torque Multiplier

- Geared head offers 4X the power of ordinary torque wrench
- Requires no air or electricity invaluable for maintenance, production or equipment service
- Upto 12,000 ft. lbs. of torque
- Used with torque wrench for precision
- High grade alloy steel maximum strength and service life
- Morethan one X4 can be stacked to provide extra ratio

anti-Backlash torque multiplier

- Limits risk of "spring back" when extender bar is used
- Coupled with larger model makes entire system anti-backlash

Chemicals & Compounds Alvin Compounds

Lab-metal* – the original ready-to-use metal putty

- No mixing hardens quickly to metal
- Can be drilled, tapped, ground, milled, chiseled, sanded, etc.
- Withstands heat up to 350°F/177°C
- Aluminum filled compound impervious to petro-products
- Bonds to clean, dry surfaces metal, wood, plastic, glass, etc.

Hi-Temp Lab-metal®

- Withstands heat up to 1000°F/538° C
- Repairs manifolds, core boxes, castings, etc.

Lab-solvent

- Surface-prep for regular & Hi-Temp Lab-metal
- Thins Lab-metal for brushing or spraying leaves no film

Heat Block - heat absorbing, insulating paste

- Insulates adjacent material against heat transfer during welding, soldering brazing or other heat treatment
- Non-toxic and is easily applied direct from container

Bessey Spatter Release

Water Based Spatter release

 Won't harm painted surfaces, welds through when wet, environmentallyfriendly—non-flammable, non-toxic, biodegradable

Solvent Based Spatter Felease

 Heat resistant to withstand high temperatures, paint compatible and the spray agent dries quickly-leaves a long lasting spatter release coating – no silicones, CFC's or trichloroethylene, uses CO, propellant, non-flammable

Cutting Fluids & Compounds

relton StiCk-Kut™ lubricating Stick Wax

- For grinding wheels, sanding belts and saw blades
- Eliminates heat buildup and belt loading extends wheel life

relton dark and light thread Cutting Oil

- Reduces friction; longer tool life; clean burr-free thread
- Forms tough film—for use on a wide variety of materials

relton rel Saw™ Semi-SyntHetiC Band-Saw Fluid

- Improves blade life; reduces machine wear
- Contains rust and corrosion inhibitors

relton Option 1 Metal Cutting Fluid

- Water based; Non-WHMIS environmentally friendly
- Nochlorine, no sulfur, non-toxic formula is safe to use

$relton\ a9\ aluminum\ Cutting\ Fluid$

 Specifically for aluminum – use for tapping, drilling, boring, milling, turning, broaching, reaming and sawing. May be used on other metals; Non-WHMIS – environmentally friendly

relton air-Flo air tool Oil

• High quality air tool and air line lubricant

relton New rapid tap Cutting Fluid

- Fine machined finish even on tough materials such as aluminum, beryllium, brass, bronze, cast iron, copper, iconel, magnesium, molybdenum, stainless steel, and stellite
- No 1,1,1 Trichloroethane ozone friendly, non-toxic, and nonflammable; non-WHMIS

Hylomar Gasket /Jointing Compounds

- Non-hardening, non-setting unlimited assembly time
- Resists flame, dust, and moisture; engine by-products; water, lubricants, fuels, refrigerants - see label for complete list
- Temperature range 120°F (50°C) to 480°F (250°C)

Bearing Heaters

Reco Induction Bearing Heaters

- Extend bearing life and cut operating cost by eliminating hammering and pounding to cold-mount bearings
- Works on bearings, sprockets, gears, couplings, sleeves
- Reduces risk to operator from flames, torches or oil baths
- Also demagnetizes bearings—easy to use, ready in minutes

model sC110d (110v or 220v)

- Bearing capacity: 4-3/8" x 11" O.D. (14" OD with optional raising blocks)
- Computer chip monitors and stabilizes temperature
- $\bullet\,$ Display panel (pre-set times, temperatures) & auto shut off

model sC110v (110V or 220V)

• Bearing capacity: 4-3/8" x 11" O.D. (14" OD with optional raising blocks)

$\textbf{m}_{\text{odel}}\,\textbf{BC}\,(220\text{V},440\text{V}\,\text{or}\,550\text{V})$

• Bearing capacity: 8" x 22" O.D. (32" OD with optional raising blocks)

model BC speCial (220V, 440V or 550V)

Bearing capacity: 12-1/4" x 22" O.D. (32" OD with optional raising blocks)

Pyrometer/Thermometer

- Multi-purpose measuring device for bearings, gears, etc.
- \bullet Digital readout from -50°C (-58°F) to +1300°C (+2000°F)

Bessey Tools North America reserves the right to alter technical specifications. Some product may vary from region to region to meet the requirements of the international marketplace.

Errors and omissions excepted, Bessey believes that to the best of its knowledge the product illustrations and descriptions provided in this catalog are accurate. However, such descriptions and illustrations are for the sole purpose of identification, and do not express or imply any warranty or condition that the Products are merchantable, or fit for a particular purpose or that the products will necessarily conform to the illustrations or descriptions. Customer is solely responsible for reliance on or use of any information, and for use or application of any product. Bessey expressly disclaims any liability for direct, indirect, consequential or incidental damages in all events and for all damages, losses and causes of action beyond the purchase price paid for the products in question.

WARRANTYPOLICY

Bessey brand clamping products are warranted under a Limited Lifetime program. We warranty that the products will be free from defects in material and workmanship for the life of the tool or we will replace, refund or repairit; provided that this warranty does not cover any damage caused by abuse, misuse, improper handling, negligence, alteration or normal wear and tear.

Other tools including but not limited to snips, c-clamps, some specialty clamps, magnets, bearing heaters and pyrometers are guaranteed for 1 year. For all products, Bessey Tools North America reserves the right to refuse either a repair or a replacement.

Bessey Tools North America makes no other warranties, express or implied, with respect to the tools or their suitability for specific applications. Bessey Tools North America neither assumes, nor authorizes any person to assume for it, any other warranty, or obligation express or implied. For a more detailed listing of Terms, Conditions and Warranty please contact Bessey Tools North America direct and toll-free at 1.800.828.1004.

Bessey Tools North America will, at its sole discretion, define if a product submitted for warranty evaluation is eligible for a warranty return and then, if eligible, offer either to repair, refund or replace any defective product. To initiate such a claim, please call and request a return authorization number then, return all parts of the broken tool(s) plus a written warranty evaluation request (with contact information) in a freight prepaid format to Bessey Tools North America.

This warranty gives you specific legal rights. Please note: you may also have other rights, which could vary depending upon state, federal and provincial law.

CAUTION: Clamping Tools

Clamping tools are not suitable for lifting, pulling or transporting. Improper use may lead to personal injuries or material damages. They should only be clamped manually without using any auxiliary tools.

CAUTION: Cutting Technology

Always wear appropriate protection including goggles and gloves while working. Sheared parts may injure the workers and bystanders. Disconnect the power supply while working on electrical devices to avoid the risk of electric shock. Always ensure the cutting direction while using snips, knives and cutters is away from your body. Only use original replacement parts whenever required. Tools should only be used manually without using any auxiliary tools. Improper use may lead to personal injuries or material damages.

Please feel free to contact us.
