

A Distinctive Offer. A Solid Value.

Techso Solutions is an **ICT** (Information and Communications Technology) company which offers a **different type of value**. Indeed, we choose to highlight the **human approach** regardless of the service provided.

Everyday, we make sure to understand the **human need** behind each of your business needs, so we can provide you with the best technology available and improve your processes.

*Because
good
consultants
don't grow on
trees:*

*100% of our investment
budget is dedicated to
increase our **technical**
and **interpersonal skills**.*

> IT Administration

Each IT project requires a specific skill and a knowledge of its application in your industry. We are able to **build a team** for every step of your IT project in combining the necessary skills, knowledge and leadership to move your project forward.

> VoIP & Telephony

Our solutions are available in different aspects : **analysis and diagnostic**, CTI extension, system migration and capacity, specific developments (such as CTI, *Click-to-Call*, CRM connectors, etc.) and management of strategic projects.

> Web Development

The development of personalized B2B applications is our trademark. Several managers are stuck with applications that do not match properly their business processes. Our team can develop **tailored solutions** for your company.

OUR DIFFERENCE

> Quality

Every employee at Techso provides **high quality services** to clients as well as to coworkers and partners of the company. We build on creativity and innovation with an approach of continuous improvement. The **coordination of our teams** is a strength and we know how to assign them for the benefit of your company.

> Reactiveness

Techso Solutions stands out by its reactivity, a very hard objective to achieve sometimes for others, slowed down by administration processes. At Techso, we offer you a **solution as soon as the issue occurs**. Our team of **mobile and reactive consultants** is devoted to solve your problems, as quickly as possible.

> Proximity

Always **present**, always **attentive**, the objective is to settle long term relationships based on **trust** with our customers. For that, we provide you with an **excellent after-sales service** and IT support.

*Techso Solutions has had the **pleasure of assisting** and is **proud to collaborate** with these fine companies:*
